VISITING THE DENTIST

PAEDIATRIC SPECIALIST

A CHILD FRIENDLY GUIDE ON WHAT TO EXPECT WHEN YOU VISIT THE TEAM AT SOUTH EASTERN CHILDREN'S DENTISTRY

WELCOME!

Today is your first appointment to see the Paediatric dentist at South Eastern Children's Dentistry.

Our Specialist dentists only see awesome kids like you- No boring adults allowed here!

Our aim is to make sure you feel safe and comfortable when you visit the dentist. We love when kids are excited to see us, we are excited to see you!

THE RECEPTION AREA

Now you have arrived to your appointment, our team will greet you! Say Hello! And let us know your name, we are looking forward to meeting you.

You can take a seat with your grown up and explore the cool seats!

There are some toys and colouring in pages for you too. You might even find some funny dentist jokes around the place

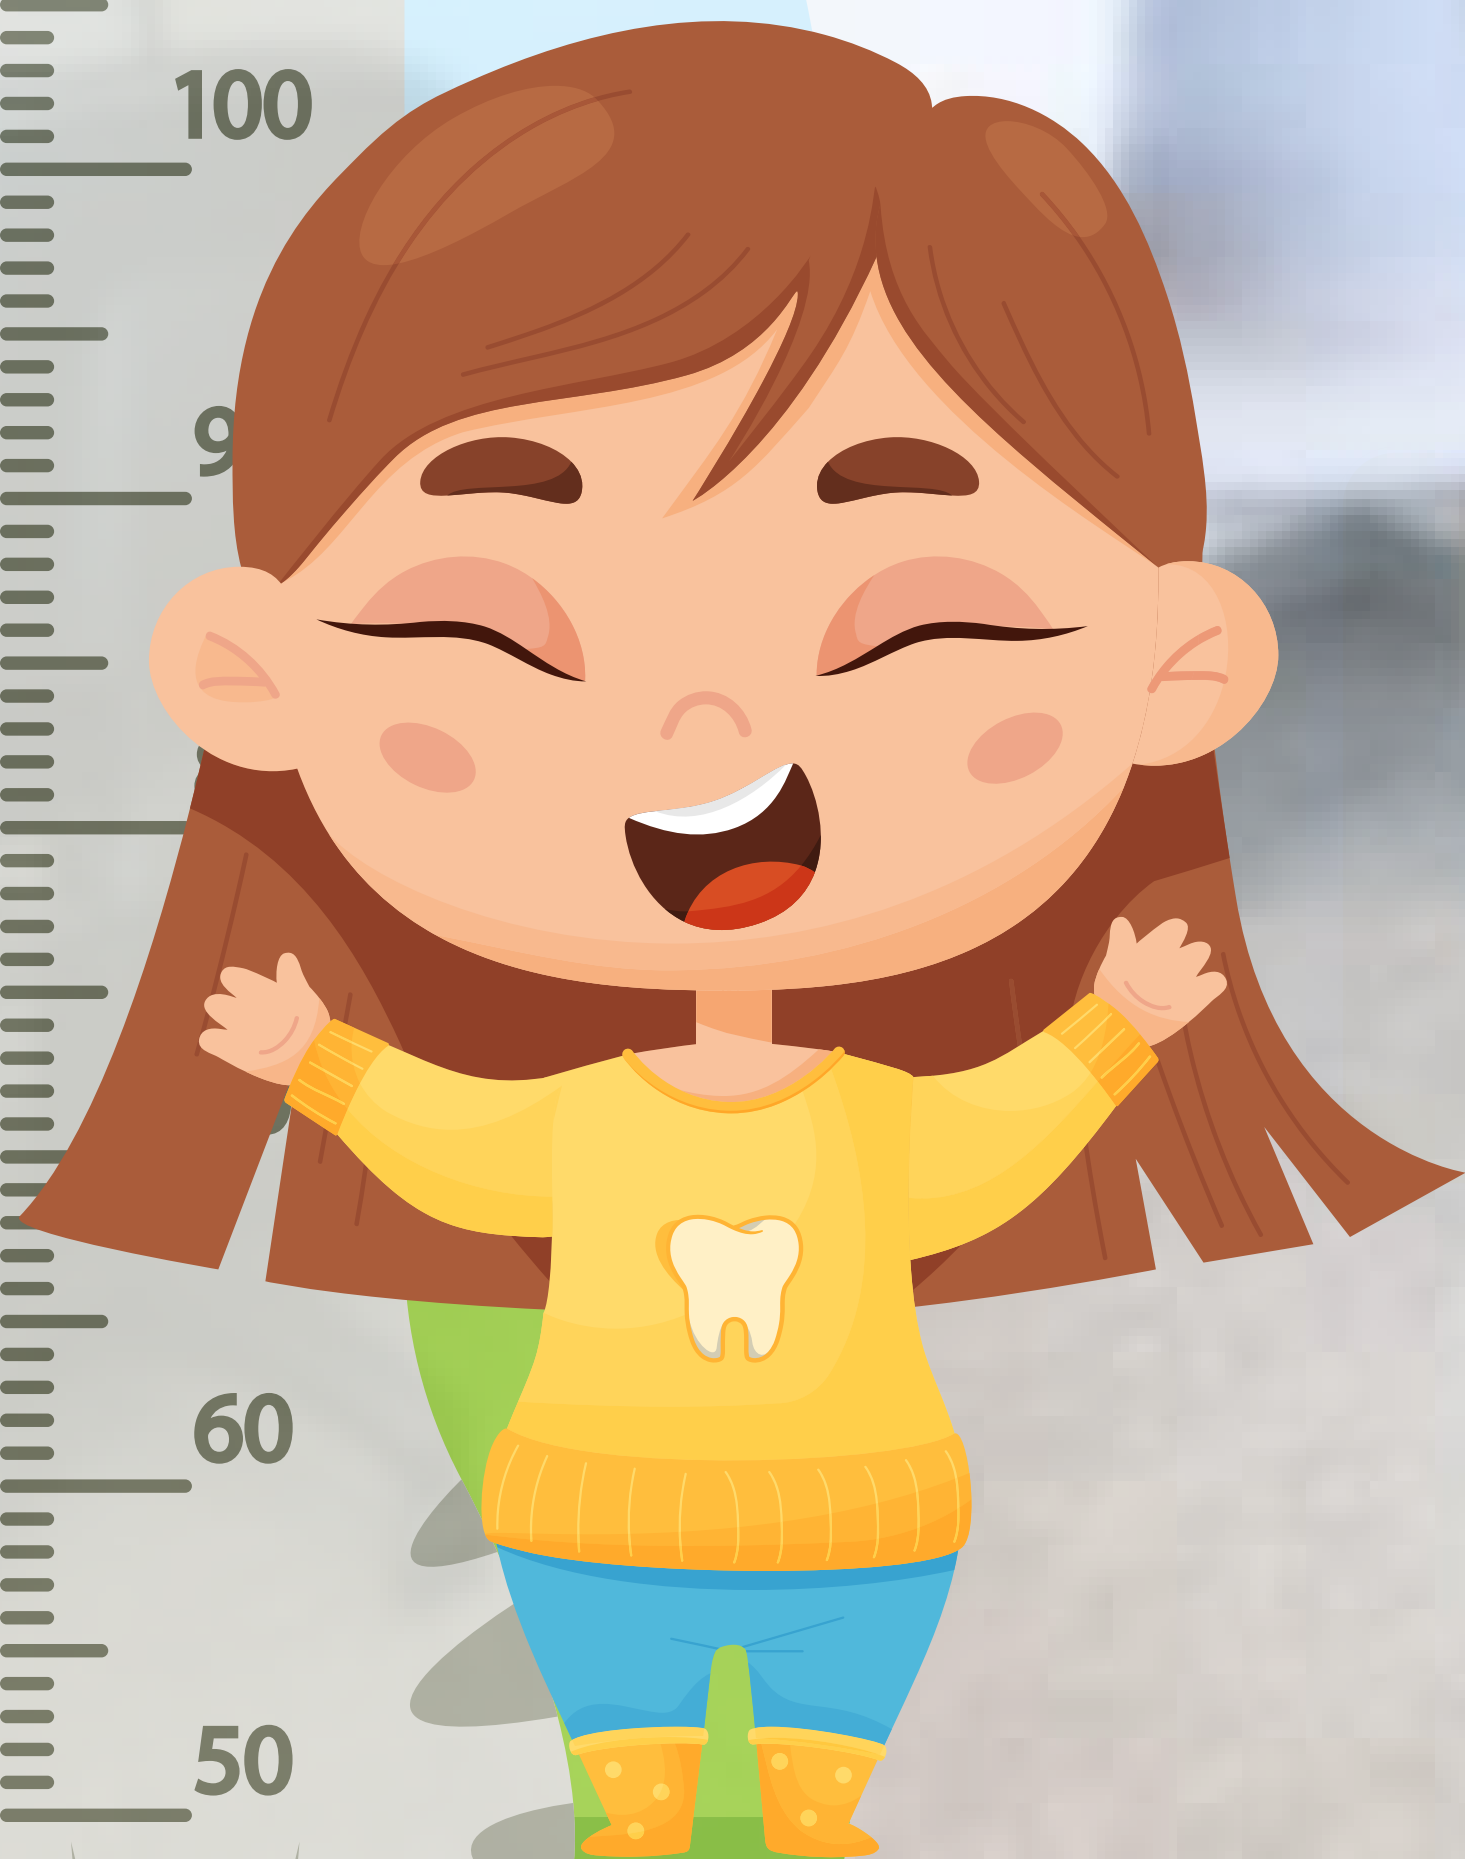

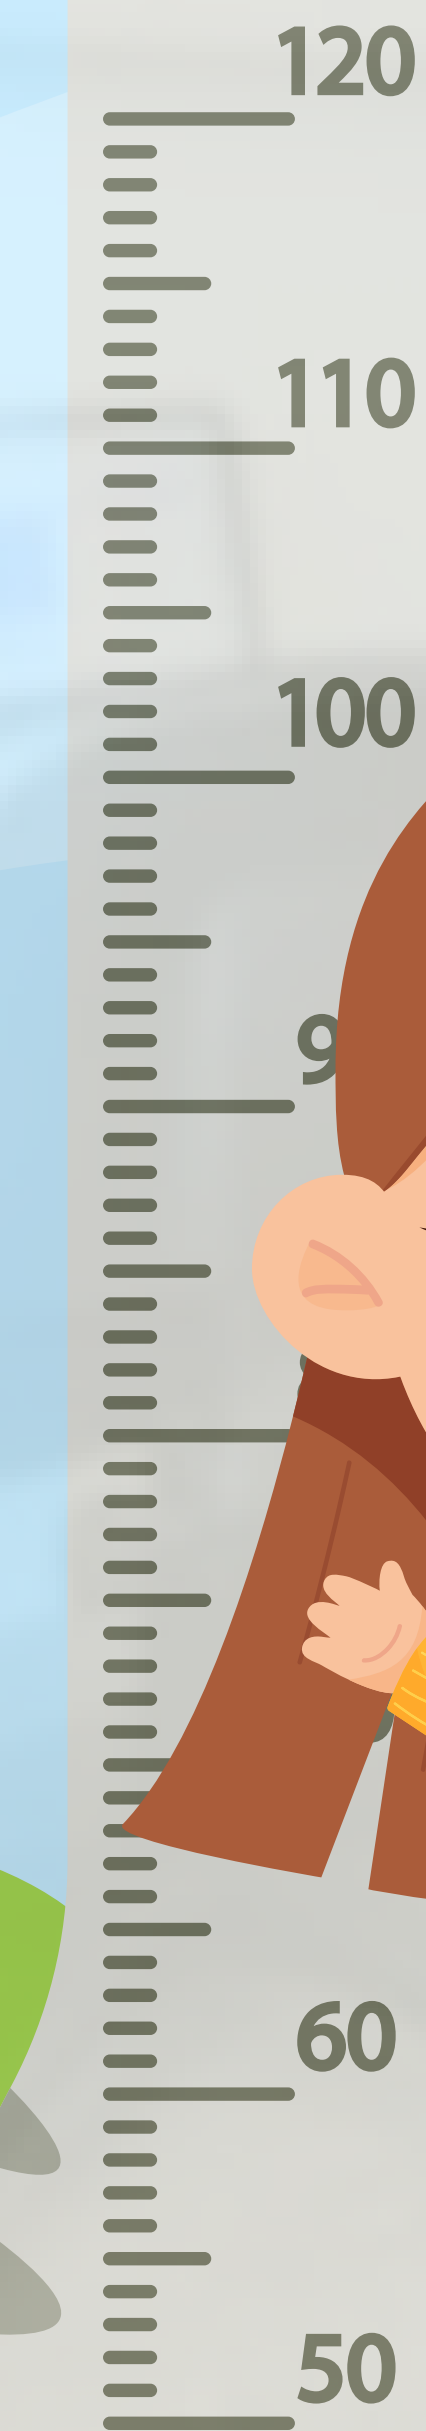

THE CONSULTATION ROOM

First up, our nurse will ask you some questions to see how we can help you. You can let us know if you have any sore teeth or anything that is worrying you

We may even take your measurements to see how tall you've grown.

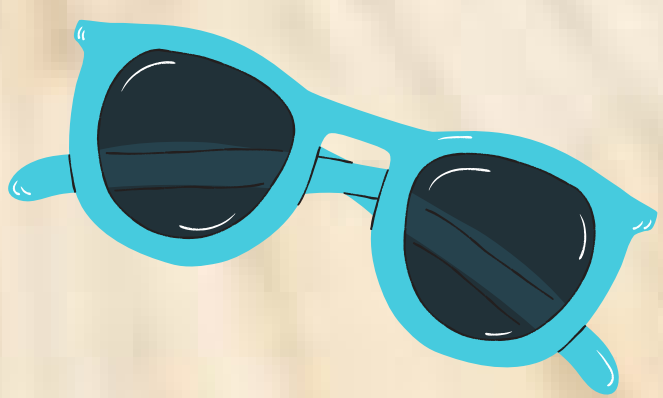

THE DENTAL SURGERY

Time to meet the Dentist-

You get to climb up onto the big comfy chair, and look up, There's a TV to watch some shows.

We have a special booster seat for all the kiddies but you are welcome to sit on your adults lap if you prefer.

You can pick out your favourite pair of sunglasses to pop on (You are welcome to bring your own pair from home if you would like!)

COUNTING YOUR TEETH

The dentist is going to count how many teeth you have. The best way for you to help is open your mouth up super wide like a Lion.

We have a special mirror to look at all of your teeth, it might feel a little cold but we will be super quick, we might even use a tooth tissue to wipe your teeth, just like you wipe your nose. Our dentist might say some funny dentist words, but you can just keep watching the TV.

TAKING X-RAY PICTURES

To have a better look at your teeth, the dentist may also take some x-rays.

These are super easy to take if you are good at playing freeze! We have special 'kiddies only' sizes of the photos, so they will be a lot smaller than the ones at a normal dentist.

The x-ray nose gives you a kiss on your cheek for about 5 seconds, it is that quick!

PICKING YOUR PRIZE

Every time after we finish counting your teeth, you get to pick a prize for being such a good helper!

What prize will you pick today?

The dentist and your adult might still be chatting but you can keep watching some TV or do some colouring in.

SEE YOU NEXT TIME!

Great Job!

You have just finished today's visit with the dentist! Well done for being an amazing helper!

We hope to see you again next time, but between now and then, keep up the superstar brushing!
